CASE STUDY

eLearning Management Solution for Continuing Legal Education

ABOUT CLIENT:

Client provides online training to legal professionals and awards certificates as a mandatory legal compliance.

The trainings are specifically tailored to comply with the respective state laws and BAR standards.

CHALLENGES

- ☑ Required state-specific certification system complying with respective BAR council standards.

- ☑ Real-time course completion tracking was not possible in the legacy system.

- ☑ Comprehensive report generation on specific lawyers was not available in the earlier system.

- ☑ Managing a huge amount of data on a single server was causing downtime and critical legal hurdles.

What Our Client Says

They are very fast, and the team is big enough to tap on each other's expertise. We are working together from last 16+ years..

OUR SOLUTION

- ☑ Developed a stable and scalable architecture to comply with complex legal rules of respective state's BAR council.

- ☑ Migrated the entire system from CI to Laravel for better security and low operation cost.

- ☑ Migrated data from single server to cloud clusters for seamless user experience and improved performance.

- ☑ Load balancing and server split to process 100K concurrent requests.

BUSINESS IMPACT

- ☑ Record business growth by 150%.

- ☑ Automated report generation eliminated manual 90% efforts for certification tracking.

- ☑ Scaled platform for future growth and improved performance.

- ☑ Reduced downtime by 80%.
